3. For the third year of operation and each year thereafter, Seven Hundred Dollars ($700.00) per student.

Statewide alternative education funding shall not be used to supplant existing school district resources or to support programs that do not meet all the criteria for the statewide alternative education system. No alternative education program shall receive less than a total of Ten Thousand Dollars ($10,000.00) per school year.

E. By September 15 of each school year, all statewide alternative education funds received and expended for students participating in an alternative education program shall be reported to the State Department of Education by major object codes and by program classifications pursuant to the Oklahoma Cost Accounting System as adopted by the State Board of Education pursuant to Section 5-135 of this title.

F. Elementary school districts, as defined in Section 5-103 of this title, may request a waiver from the State Board of Education from the requirements of this section to implement and provide an alternative education program. Any elementary school district that has not received funding pursuant to the provisions of subsection D of this section shall be automatically granted a waiver. If a school district is granted a waiver, no statewide alternative education funding shall be allocated to the district.

G. 1. The State Board of Education shall contract for technical assistance for operation of an Alternative Education Technical Assistance Center. The technical assistance provider shall be an entity located in Oklahoma that has been officially recognized by the United States Department of Education to assess and facilitate dissemination of validated educational programs in Oklahoma. The technical assistance provider shall have priority, if its operations are deemed satisfactory by the State Board of Education and if funds are available, for annual renewal of the contract.

2. The duties of the technical assistance provider shall include, but shall not be limited to:
   a. providing initial and ongoing training of personnel who will educate at-risk populations through alternative education programs,
   b. providing technical assistance to school districts to enhance the probability of success of their alternative education programs,
   c. evaluating state-funded alternative education programs,
   d. reporting to the State Board of Education the evaluation results of state-funded alternative education programs, and
   e. providing in-depth program analysis and evaluation of state-funded alternative education programs.

3. The State Board of Education shall not provide funding to an alternative education program that does not receive a recommendation for continued funding in the evaluation provided for in this subsection. Provided, any school district not receiving such a recommendation for continued funding may request a hearing before the Board with a review of the evaluation prior to the Board’s final determination.

H. All alternative education programs shall be subject to statutes and rules applicable to alternative education, including any exemptions from statutory or regulatory requirements authorized by statutes or rule.

I. An alternative education program may be offered by an individual school district or may be offered jointly by school districts that have formed interlocal cooperative agreements pursuant to Section 5-117b of this title. Any school district submitting a plan for an alternative education program serving fewer than ten students shall enter into a cooperative agreement with another school district to jointly provide the program unless the program has been granted a waiver from this requirement by the State Board of Education.
