

An on-site compliance review is a comprehensive review of all special education and related services provided by the Local Educational Agency (LEA). This review will include a review of student records, a review of administrative records, staff interviews, parent interviews, tracking of students, and other activities based on identified need. This type of monitoring also consists of a financial component which includes a review of the LEAs Part II Finance Application and any expenditure reports (claims) submitted by the LEA for appropriateness under Part B of Individuals with Disabilities Education Act (IDEA). In addition, documentation of LEA requirements for children with disabilities enrolled by their parents in private schools will also be reviewed if any non-profit private schools are located in the district.

Pre-Monitoring Activities

- 1) The OSDE-SES will call the LEA to assure that the selected LEA is in session on the date of the scheduled on-site monitoring visit.
- 2) Mail to the Superintendent and CC: Special Education Director of the LEA the following documents two weeks prior to the on-site monitoring visit:

The Administrative Records Checklist should be completed prior to the visit. OSDE-SES staff will extend a personal telephone call to the LEA on the day in which the letter and packet is to be mailed announcing the visit. At that time, the OSDE-SES staff will notify the LEA of the visit, provide the details regarding the visit, and answer any questions the LEA may have about the visit.
