Dear State Board of Education;

The statute to be waived is 70-6-122.3

The need for this statutory waiver is due to not being able to find a quality applicant to teach 4 sections of U.S. History. This position came open on January 9th when the teacher in that position resigned. There were 3 applicants available and all three had proven to not be successful in previous teaching positions. This statutory waiver will provide the best teacher in this classroom that is available. The plan is to have Terri Russell who has a degree in history and has an adjunct teaching number (A00937) teach these 4 classes the remainder of this semester and have a career teacher will be her mentor. Mrs. Russell is registered to take the teacher competency tests the next time they are offered this spring.

Sincerely,

Bill Seitter, Superintendent

1. **Statement of the Statute to be Waived**: (specify statutory citation)

70-6-122.3

*Original signatures are required.*
A. A description of the educational benefits to be derived (i.e., describe specific benefits to learning/achievement).

The educational benefit relates to the quality of teaching in the classroom. This waiver allows our district to have a teacher with a college degree teach 4 sections of U.S. History opposed to having a teacher that has poor references and has not been successful in other school districts.

B. A definition of the standards of the plan (i.e., alternate strategies proposed).

The plan is for this person to teach this class for the remainder of this semester. She has a degree in history and she is registered to take the teacher competency exams in April. She earned her bachelors degree in 2010.

C. Development of definitive work products, such as site improvement plans and progress reports (i.e., describe the expected student performance levels to be demonstrated or results of the Statutory Waiver).

The teacher that left this position was not preparing students academically and with this waiver the classroom now has a teacher who is working to make sure students are learning each and every day and will be prepared to be successful on the CRT tests.
D. Demonstration of collaboration of teachers, administrators, higher education representatives, students, parents/families, and the community.

The teachers at the H.S. understand the problem of finding a quality teacher for this position at this time of the year. Our administrators have contacted High Ed. officials trying to find quality applicants and have not been successful.

E. Development and the use of an assessment mechanism to determine progress in meeting the goals and objectives of the plan (i.e., method of evaluation).

The evaluation will be how well the students do on the CRT tests. This plan is for this person to teach these classes for the rest of this semester only.

F. Development of an in-service training plan to be provided to personnel at the site who will participate in the projects.

The in-service is for this teacher to be assigned a mentor. This mentor will work with this teacher to develop lesson plans, classroom management, and preparing students for the CRT end of year tests.
G. Report on the results of the plan to the State Board of Education and provision of appropriate technical assistance to other school districts and the State Department of Education as required (i.e., describe how you will report to the State Board of Education annually).

This plan is for one semester and will not be requested to continue longer.

H. Explanation of how the plan will affect other schools, programs or sites in the district.

There will not be an affect on other schools, program, or school sites in the district.

I. Period of public review on the proposed plan.

There will be an agenda item for the public to provide comments on this plan before the board of education takes action on this statutory waiver. This plan will be on the school district website for parents to review before the board meeting.
J. Notification and comments from the district bargaining agent, or if no bargaining agent exists, the teachers directly affected.

The local bargaining agent has been contacted and the plan has been explained. They are in full agreement with the plan.

K. All comments, recommendations and objections made by the bargaining agent and others to the local board of education shall be forwarded to the State Board of Education for consideration prior to review of the plan.

Weatherford School District officials will meet this requirement.

L. Timeline for implementing the Statutory Waiver, specifying the period requested.

The timeline will be for January 9, 2012 until the end of the semester which is May 24, 2012.
