1 – Introduction

The Oklahoma State Department of Education (OSDE) has developed this application to take the data that is submitted from the local Student Information System up through the Wave to develop a list of students based on their course-section enrollments and grades that could be considered for the Advanced Coursework criteria for the A-F report card. This application does not include the Career Tech Courses, as those will be sent directly from Career Tech to OSDE for inclusion in the Advanced Coursework grade.

1.1 - Purpose

The purpose of this manual is to provide a step-by-step resource for accessing and submitting the A-F Advanced Coursework Report to the Oklahoma State Department of Education for review and approval.

1.2 - How to use this document

This document is intended to be a step-by-step guide for reviewing and submitting the A-F Advanced Coursework report. To access successfully, follow the steps outlined in this document. For assistance with a specific section, identify the exact area in the Table of Contents and navigate to that section with a click of the mouse to follow the instructional steps. If you have any questions regarding this report, please contact the State Department of Education at 405-522-5169 for assistance.
2 – Access to the A-F Advanced Coursework Report

Access to the A-F Advanced Coursework Report is provided to a user by the District Superintendent or District Single Sign On Logon Administrator through the Single Sign On System. Individuals who already have the “District Superintendent”, “Site Principal”, or “District Administrator” role assigned to them in the Wave will automatically be granted access to the A-F Advanced Coursework Report. All others will need to have the “A-F Advanced Coursework Access” role assigned to them.

The Superintendent or Logon Administrator will need to grant each person the access they would need to review or submit the report. This will include the site level person who will complete each site level report and any other individuals.

2.1 Go to the Wave Portal

To begin, go to the Single Sign On website (https://sdeweb01.sde.ok.gov/SSO2/Signin.aspx), log in and choose the “The Wave’s Portal” option from the list of systems. The list of systems will vary person-to-person depending on what other applications they have access to.

Figure 1 - Single Sign On Log-in Screen

Figure 2 - Single Sign On Application List
2.2 Go to the A-F Advanced Coursework Report

Once into the Wave go to the “Reporting” tab and select “State Reporting Certification”. This is the application where reporting certification will take place. Once into the State Reporting Certification Application you can scroll to the bottom of the screen and it will list all of the current reports. Select the A-F Advanced Coursework Report in the Report Link column. Below is a list of the different columns in this table.

Column Descriptions:

- **Report Link** - The link that will take you into the actual report
- **Status** - The "District" status. This will only change to the next level when all school sites associated with that report for your district reach the next level. There are four levels "Not Started", "In Process", "Confirmed", and "Certified".
- **Report Opens** - The first day you can access the report.
- **Due Date** - The day the report is due certified.
- **Contingent Report(s)** - This indicates the report requires another report to be completed first. You will not be permitted to begin a report that is contingent upon another until the other report shows a status of "Certified". If "None" is listed, the report is NOT contingent and can be started on or after the "Report Opens" date. The Advanced Coursework Report is not Contingent upon any other report.
- **Report Note** - This is a summary about the report. Clicking on this will provide you with information related to this report (e.g. purpose, applicable state or federal laws, new additions or functions in the report).
- **Program Area / Phone #** - The State Department of Education program area responsible for the collection of this report and the phone number you should call with questions related to this report.
2.3 Select Site and Reporting Status

To begin the report, click on a school in the school list under the column heading “Site Name”. For each site there is a site status to indicate what part in the process the school is in. All schools must reach a “Certified” status. Below is a graphical representation of the statuses that the report goes through. On this screen the following functions are available:

Select the Reporting tab and select State Reporting Certification

Select Report

Figure 3 - The Wave Reporting Tab, State Reporting Certification

Figure 4 - State Reporting Dashboard
- Confirm - Only the Superintendent and Site Principal will be able to click the "Confirm" button. This will lock the data so that it can no longer be edited. It will still be viewable.
- Release - Only the Superintendent can click the "Release" button. This will undo the "Confirm" and allow the data to be edited again. Do not call the state to have a report "Released" from the “Confirm” status. Only the Superintendent can perform this task.
- Certify - Only the Superintendent can click the "Certify" button and only after all of the schools are listed with a status of "Confirmed". This will lock the "Release" button so that the report can no longer be edited by the district. Only the state can unlock the Certified Report. Call the phone number on the State Reporting Certification Dashboard associated with this report to have the report unlocked.

Figure 5 - Reporting Status'

1. Not Started
   - No user has logged in to look at the report.

2. In Process
   - At least one person had logged in to look at the report.

3. Confirmed
   - The Principal has confirmed the report.

4. Certified
   - The Superintendent has Certified the report.

**All sites must be confirmed before the Superintendent can Certify.**
2.4 General Navigation

Once in the A-F Advanced Coursework Report, there are standard buttons and links on every screen. The Navigation buttons at the top allow you to go between different sections of the application.

- **Site Selector** – This returns you to the Site Status screen to select a different site or Confirm/Certify.
- **Prepopulated Data** – Data that is submitted directly from your local Student Information. This screen does not allow you to change any of the data, only review it.
- **On Screen Data Entry** – Data to review, correct, and submit. Once you select this screen the regular updates from your local Student Information System to this report will stop. Do not go to this screen until you have made as many changes as possible through updating your local Student Information System.
- **Final Report** – The final version of the report once all changes have been completed in the On Screen Data Entry section.
- **Find Missing Students** – Displays a list of the students not on the report and indicates the reason they are not showing up.
- **Reporting Tools** – This section contains reports that will assist you in completing the A-F Advanced Coursework Report.
Figure 7 - Navigation
3 – Prepopulated Data

This section provides a step-by-step process for reviewing the data in the Prepopulated Data screen.

3.1 Navigation

The data on the Prepopulated Data screen is pulled directly from your local student information system and is updated on a nightly basis. On this screen you should be reviewing the data for accuracy and then making changes in your local student information system to update the information. *Note: Please allow up to 24 hours for changes made in your local student information system to be reflected on this report.*

To the left of the student’s name there is a plus (+) sign you can use to expand and collapse which shows the courses for a particular student.

The first seven columns on this page are simply for you to be able to identify the student being reported. All students enrolled at any point during the year in your school should show up on this list. This does NOT mean that all of the students have a course that counts towards the Advanced Coursework criteria set forth in the A-F Report Card system.

- School ID – the county-district-site code
- Local Id – the local student Id (ID) number that is assigned to that student
- STN – the state Student Testing Number assigned to that student
- Grade – the current or last known grade level for the student at your school
- First Name/Middle Name/Last Name – the name of the student as it is reported in the local SIS.

The last two columns are indicator columns:

- Has Course – A check box for each student that indicates whether there is a course listed for the student.
- Participation – An indicator that a student has earned a point for having at least one course that qualifies as Advanced Coursework and meets the criteria for awarding a point. *Note: For the rules on which courses and grades count for participation please refer to the Advanced Coursework FAQ document, which can be found on the SDE website in the A-F Report Card section.*
  

All points displayed here are simply indicators. They may not the final count of points that will be used in the A-F Report Card. All preliminary numbers are subject to change at the discretion of the Accountability Office through the final data review made by that office.

The filter boxes at the top of each of the columns will allow you to search for only those students that have courses listed underneath them, by selecting the checkbox underneath the “Has Course” column header and then selecting the cone shaped icon and selecting “Equal To”.
The course information that is displayed is as follows; there will only be one record for each course that counts for Advanced Coursework. There may be several grades for the course displayed within that one record.

- **OCAS Course Code** – The state OCAS course code for the course from your local Student Information System (SIS).
- **Official Course Title** – The official OCAS course title as determined by the submitted OCAS Code.
- **Instructional Level Description** – the level of instruction for the course
- **Term Span Description** – The term span code and description as it is received from your local SIS.
- **Length of Course** – The length of the course. With the exception of block courses and concurrent enrollment courses, the length of course defaults to a full academic year based on what you put in the Term Span (e.g., Four Quarters, Two Semesters, Two Trimesters). This field can be edited on the On Screen Data Entry screen.
- **T1-T4** – the grade that was received within that term. For example, if the Length of Course is One Semester, then the T1 column should be filled in with a letter grade and the other fields (T2-T4) will display “Not Applicable”. If the Length of Course is Four Quarters, then all four Term (T1-T4) columns should be completed.
- **Reason Not Received** – If this column is not blank, the reason that a course does not qualify a student for participation will be displayed.
- **Local Course Description** – The local name of the course as it is received from your SIS.
3.2 Data

The data that is pulled from the local student information systems is transformed to fit within the reporting requirements of the A-F Report Card. The requirements for the data to be prepopulated into this report are described below.

In order for a course to appear in this application, one of the following criteria must be met:

The 0576 – College Level instructional level must be indicated in the Instructional Level object; or one of the following course codes must be used (most of the course codes indicate an AP or IB course, these will be pulled in regardless of the instructional level indicated, unique courses are identified by a distinct OCAS code).

<table>
<thead>
<tr>
<th>OCAS Code</th>
<th>Course Title</th>

</tbody>
</table>
### OCAS Code | Course Title
---|---
5055 | AP Chemistry
5121 | AP Environmental Science
5215 | AP Physics B
5216 | AP Physics C - Mechanics
5217 | AP Physics C - Elec & Magnetism
5305 | IB Science
5415 | AP U.S. History
5525 | AP Macroeconomics
5526 | AP Microeconomics
5545 | AP Comparative Gov. & Politics
5546 | AP US Government & Politics
5547 | IB Social Studies
5645 | AP Psychology
5735 | AP European History
5736 | AP World History
5790 | AP Human Geography
5213 | AP Physics I - Algebra Based
5214 | AP Physics II - Algebra Based
5560 | AP Seminar

If the submitted data does not meet the requirements, or does not qualify for participation, the “Reason Not Received” column will be populated by one of several reasons:

- **Course is incomplete** – This will populate the “Reason Not Received” column if the number of term grades (entered into T1-T4) does not match the Length of Course. For example, if the length of term is Two Quarters and T2 is “Missing Grade”, then the Course is incomplete.

- **Student was not enrolled in membership for this school** – This will populate the “Reason Not Received” column if the Local ID (the County District and Site Code) from your districts SIS does not match the school of membership for the student. For example, if the course information is listed under an unaccredited alternate school in your district with a fictional site code, and the student is enrolled in the accredited site, this will populate the column.

- **Student must receive a D or better for participation** – This will populate the “Reason Not Received” column if the lowest grade that the student received (listed in T1-T4) is an F. The course will not qualify a student for participation.

- **Course does not meet criteria for advanced coursework** – This will populate the “Reason Not Received” column if the submitted course does not meet the criteria for advanced coursework (i.e., the OCAS course code is not for an AP course, IB course, or internship or the instructional level does not indicate dual enrollment).

### 3.3 Filter Grid

The data grid can be filtered based on the filter criteria you enter. At the top of each column under the column header there is a space for you to enter filter criteria. Once you enter your filter criteria...
select the icon that looks like a cone ( ). This will bring up a list of filter options (contains, equal to, etc.). Select an option and the report will filter based on your selection. You can filter on multiple columns at one time (e.g. Has Course and Participation). When you want to remove the filter criteria select the filter button again and select “NoFilter”. This will remove the filter and return the list to all records. If you filtered in multiple columns, you will need to do this for each column to remove ALL filters.

![Figure 10 - Enter Filter Criteria and select Filter Button](image)

### 3.4 Change the Report View

In the grid view you can change the order of the columns by dragging the column and placing it where you would like for it to appear. Hover over the column that you would like to move until it looks like crosshairs ( ); select the column and hold it down, then drag the column to where you want the column to move to and de-select. This will release the column and move it to that location.

You can also sort the report by selecting the column title. This will sort the report alphabetically based on the column header you selected.

![Figure 11 - Dragging to Reorder Columns](image)
4 – On Screen Data Entry

This section provides a step-by-step process for completing the On Screen Data Entry.

4.1 Navigation

Once you select the On Screen Data Entry button at the top, this will freeze your data and the Wave will stop updating the data based on data received from your local SIS. If you select the On Screen Data Entry button prior to the end of school and all grades being entered you will need to manually input all missing grades for the courses. Only begin the On Screen Data Entry when you are finished updating or no longer able to update data using your local SIS. The On Screen Data Entry view is very similar to the Prepopulated screen with the addition of the “Add Course”, “Edit Course”, and “Delete Course” buttons. This will allow you to manually update the data before it is submitted for inclusion in the A-F Report Card calculations.

At the conclusion of this report, the list should contain all students, courses and grades which count towards advanced coursework credit.
4.2 Add Record (Course)

In the On Screen Data Entry page you can add a course to a student by selecting the “Add New Course” button at the top of the table. This will open an edit screen with various drop-down boxes to complete. All fields on this screen are required to add a new course. Make sure and select “Update” at the bottom of the edit screen to save the new record. Once you select “Update”, the data will be reviewed and the “Reason Not Received” column will populate with any reason that applies, or it will remain blank if the course qualifies for participation.
4.3 Edit Record (Student)

In the On Screen Data Entry page you can edit a student’s existing courses by selecting the “Edit” button to the left of their name in the table. This will open an edit screen with various drop-down boxes to complete.

![Select “Edit” to change a record](image)

Figure 17 - Edit Button

4.4 Adding and Editing Data Business Rules

When a record is added or edited, there are certain requirements that must be met for the data to be saved. Below are the data fields and the requirements around each:

<table>
<thead>
<tr>
<th>Column Name</th>
<th>Rule</th>
</tr>
</thead>
<tbody>
<tr>
<td>OCAS Course Code</td>
<td>The State OCAS code for the course.</td>
</tr>
<tr>
<td>Official Course Title</td>
<td>This is the Official State OCAS title for this course.</td>
</tr>
<tr>
<td>Instructional Level</td>
<td>Dropdown box for selecting the instructional level of the course. Keep in mind that dual enrollment courses must have a college level instructional level in order to be recognized as advanced coursework.</td>
</tr>
<tr>
<td>Term Span Description</td>
<td>Dropdown box that you must select the best description for which the grade is for.</td>
</tr>
<tr>
<td></td>
<td>Semester – your courses are scheduled as a Semester schedule.</td>
</tr>
<tr>
<td></td>
<td>Trimester – your courses are scheduled as a Trimester schedule.</td>
</tr>
<tr>
<td></td>
<td>Quarter – your courses are scheduled as a Quarterly schedule.</td>
</tr>
<tr>
<td>Length of Course</td>
<td>The length of the course to indicate how many grading terms are relevant. For example, if you select Two Quarters then T1 and T2 field will be expected to be completed.</td>
</tr>
<tr>
<td>T1 – T4</td>
<td>The grade in the course for the specific term (A, B, C, D, F)</td>
</tr>
</tbody>
</table>
5 – Bulk Updates

This section shows you how to upload an Excel document to replace data for reporting.

5.1 Navigation

**WARNING:** Any bulk update must be a complete file of all of the advanced courses for every student. It WILL NOT supplement the data that already exists; it will erase and replace the course data that exists for each student. This process should only be used if it is impossible to make the updates in your local SIS. Please contact the Office of Accountability at 405-522-5169 for assistance before attempting a bulk upload.

If a large amount of changes need to be made and it would be easier to produce a file from your local Student Information System to upload to the application, this can be done using the “Import Excel File” functionality. At the top right of the table there is a button labeled “Import Excel File.” This will open a screen for you to upload your Excel document. Once it is uploaded a data validation check will be conducted to ensure it meets the data standards in place in order to upload correctly. A data template with examples is provided for you in the “Instructions” section of the On Screen Data Entry page.

![Figure 18 - Import Excel File](image)

5.2 Uploading the File

The file format for the upload file must follow the following format.

- Local ID – The local ID for the student. This must exist and must match a local ID for a student already in the application for this particular school.
- STN – The STN for the student. This must exist and must match the STN for a student already in the application for this particular school.
- Course Title – The local course title for this course. This must exist, but can be whatever would work best to describe the course locally.
- State Course Code – must be four digits and must be a valid course code unless the Instructional Level Code is 0574 (International Baccalaureate) or 0576 (College Level). In those two instances, it can be left blank.
- Term Span Description – must be Semester, Quarter or Trimester
- Length Of Course – must be one of the following: One Quarter, Two Quarters, Three Quarters, Four Quarters, One Semester, Two Semesters, One Trimester, Two Trimesters, or Three Trimester
- T1 – must be A, B, C, D or F
- T2 – must be A, B, C, D or F or Not Applicable
- T3 – must be A, B, C, D or F or Not Applicable
- T4 – must be A, B, C, D or F or Not Applicable
- Instructional Level Code – must be one of the four digit instructional codes, and must be numeric (see Instructional Codes below)

To upload the file, select the Browse button and locate your file. Once you have selected your file, select the “Upload File” button. Once this is complete you will see a note indicating that your file has been uploaded.

**Instructional Level Codes:**

<table>
<thead>
<tr>
<th>Code</th>
<th>Short Description</th>
<th>Long Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>0568</td>
<td>Remedial</td>
<td>The content of this course is used primarily for remediation and is designed for that specific purpose.</td>
</tr>
<tr>
<td>0569</td>
<td>Special Education Course</td>
<td>The content of this course is used primarily for special education students and is designed for that specific purpose. If this course will have special education students in it, but the purpose of the course is not specifically for providing instruction at a level designed for special education students, this code will NOT be used.</td>
</tr>
<tr>
<td>0570</td>
<td>Basic</td>
<td>Same as General (0571). The content of this course is designed specifically for the general population of students. Either this code or 0571 (General) can be used as the default for most classes the average student will take.</td>
</tr>
<tr>
<td>0571</td>
<td>General</td>
<td>Same as Basic (0570). The content of this course is designed specifically for the general population of students. Either this code or 0570 (Basic) can be used as the default for most classes the average student will take.</td>
</tr>
<tr>
<td>0572</td>
<td>Honors Level</td>
<td>This is an Honors Level course, but is NOT specifically an Advanced Placement or International Baccalaureate program.</td>
</tr>
<tr>
<td>0573</td>
<td>Gifted and talented level</td>
<td>The content of this course is used primarily for instructing Gifted and Talented students and is designed for that</td>
</tr>
<tr>
<td>Code</td>
<td>Short Description</td>
<td>Long Description</td>
</tr>
<tr>
<td>------</td>
<td>------------------</td>
<td>------------------</td>
</tr>
<tr>
<td></td>
<td></td>
<td>purpose. If this course will have Gifted and Talented students in it, but the purpose of the course is not specifically for providing Gifted and Talented instruction, this code would NOT be used.</td>
</tr>
<tr>
<td>0574</td>
<td>International Baccalaureate program</td>
<td>This course is specifically part of an International Baccalaureate program.</td>
</tr>
<tr>
<td>0575</td>
<td>Advanced placement</td>
<td>This course is an Advanced Placement course.</td>
</tr>
<tr>
<td>0576</td>
<td>College level</td>
<td>This course is being taught at a college or university. Note: This code should NOT be used for Career Tech courses.</td>
</tr>
<tr>
<td>0577</td>
<td>Untracked</td>
<td>Do not use this code.</td>
</tr>
<tr>
<td>0578</td>
<td>English Language Learner (ELL)</td>
<td>The content of this specific course is used primarily for instructing English Language Learner (ELL) students and is designed specifically for that purpose. If this course will have English Language Learners in it, but the purpose of the course is not specifically for ELL instruction, this code would NOT be used.</td>
</tr>
<tr>
<td>0579</td>
<td>Accepted as a high school equivalent</td>
<td>The course being tracked in the Student Information System was not taught by the high school specifically, but rather by a different school, educational institution, or by other means and is considered by the school district to be instruction equivalent to what would be found in a general high school course. This code could be used for Career Tech courses unless another code listed in this code list will apply. For example: if a Career Tech course was Advanced Placement, the Advanced Placement code should be used.</td>
</tr>
<tr>
<td>9999</td>
<td>Other</td>
<td>None of the other codes apply to the general nature or instructional level of this course. (Note: This may be used if a course must be set up as a schedule filler such as “recess” or “lunch”)</td>
</tr>
</tbody>
</table>

**Other Business Rules:**
If the Local ID and STN do not match a Local ID/STN combination in the Wave for the school you are uploading to, the record will fail.
5.3 Data Clean up

There are several tools with this upload process that will allow you to run the data you submitted through validation to ensure it is in the appropriate format.

After you upload your Excel file a note will appear below the button indicating whether your data was uploaded appropriately or if there are data corrections that need to be made. You can view the correct data by selecting the “View Good Data” button, and you can view the data that needs to be corrected before it can be submitted by selecting the “View Bad Data”. If there was some good data and some bad data, it is recommended that you correct the “Bad Data” in the Excel spreadsheet and repeat the process to have a complete file to upload.

The “View Good Data” screen will show a table with all of the data that is ready to be submitted. Once you are ready, select the “Submit Good Data” button and this will make the updates to the records. Select “Return” to go back to the On Screen Data Entry page. On the “View Bad Data” screen it will show a table with all of the data that needs to be corrected before it can be submitted. The “Problems” column at the end of the table describes the issue with the data.
Figure 21 - View Bad Data

Identifies what the problems are with the data uploaded.
6 – Final Report (to Confirm)

This section provides instructions for the user to view, certify, and export the Final Report. Once all changes have been completed in the On Screen Data Entry screen, the Principal can log-in and view the final report; if needed the report can be exported to CSV or XLS (Excel) format.

### 6.1 Navigating to the Final Report

When the data is determined to be complete the Principal can login and view the “Final Report”. The “Final Report” is the navigation button next to the On Screen Data Entry.

![Figure 2214 - Final Report Navigation Button](image)

### 6.2 Export the Final Report

To the far right of the grid there are two small icons that will allow you to export to XLS (Excel) or CSV (CSV). After you select the icon, look for a pop-up at the bottom of the screen (this may vary depending on what version of windows or other operating system you are using).

![Figure 23 - Export Report](image)
6.3 Confirm the Report

There are two ways to confirm the report:

1. Through the Final Report screen
2. On the Site Selector Screen

On the Final Report page a person with the “Principal” role will see the “Confirm” button activated. If you do not see this button activated and your report is in the “In Process” status, then you do not have the proper authority to confirm the report.

The other method to confirm the report is on the Site Selector Screen. The “Confirm” button will be available to the right of the site’s name to those with the appropriate access.
7 – Find Missing Students

This section provides instructions for the “Find Missing Students” section of the report. This view shows a list of the students that are missing from the Prepopulated or On Screen Data Entry and why they are missing from the report.

To the far right there are two columns that indicate the particular issues for each student. If there is something in the STN issue column then the student is on the STN wizard waiting for an STN to be assigned. The STN column will also be highlighted. If there is something in the Data Validation Wizard, then the student is on that wizard because of one or more issues with the data. The reason for the issue will also be highlighted.

You can select the link to go to the particular wizard. If there are a lot of errors you may want to export the report for review. Select the Excel icon in the right hand corner to export.

8 – Reporting Tools

This section provides instructions for the Reporting Tools section of the report. There are two reports to view to assist with A-F Advanced Coursework Report. These reports should be carefully reviewed prior to confirming and/or certifying the report.

- **Advanced Coursework Students** – this report shows a list of the students that will be considered for the participation points for the A-F Advanced Coursework criteria.

- **Advanced Coursework Summary** - this report shows the preliminary points for each type of course that counts towards advanced coursework. Note: These are preliminary counts. The data will be reviewed by the Accountability Office and the final points will be displayed during the review period for the A-F Report Card.

### 8.1 Navigating the Report

On the “Reporting Tools” page choose a report from the drop-down list then, if applicable select the checkbox next to “District Report”. Finally, select the “View Report” button. The “District Report” checkbox is optional and should only be used by district users to show all sites under a particular district. All reports open up in a new window.

![Figure 27 - Reporting Tools Screen Navigation](image)

After clicking “View Report” a new screen will appear with the “Report Information”. Select a format from the drop down box at the top of the screen (e.g. Excel, Word, or PDF) and click “Export”. You will then be prompted to either “Open” or “Save” the document. Choose “Open” and the document format you selected will appear. For this report, Excel is probably the best option to choose for viewing the data.

9 – Superintendent Responsibilities

In this section we will review how the District Superintendent is to “Certify” the A-F Advanced Coursework Report.

9.1 Certifying the Report

To officially submit the report to OSDE for reporting, the District Superintendent must select the “Certify” button located on the Site Selector screen. This can only be done when all sites list are in the “Confirmed” status.

**Figure 29 - Certify Button**

9.2 Releasing the Report

If a site has already confirmed their report and they determine they need to make some additional changes, the District Superintendent has the authority to “Release” the site report in order for them to go back and make changes on the On Screen Data Entry screen. Doing so, will change the report site status to “In Process”. The Principal will need to re-confirm the report, then the Superintendent can certify the report.
9.3 Decertification

If the Superintendent has already certified the report and the site/district determines they need to make additional changes to the report, they can call the OSDE to decertify their report. This will put it back to the “Confirmed” status and allow the Superintendent to “Release” the individual sites that need to make corrections.
