7. Click the “Yes” box.

7. This will reveal the option to create a new SW/SI Plan.

8. Select site from the drop down menu and click the blue "Create New Project" button.

When a site has a SW/SI plan that was final approved in the previous fiscal year, there is the option to **roll forward** the existing approved SW/SI Plan. In this case, when given the option to select a site, choose the site from the "Roll Existing Project Forward" menu. If the site does NOT appear in this menu, they DO NOT have a SW/SI Plan that was previously final approved, and therefore, this option cannot be used.
